Client

Regal Cinemas

The circular logo portion of this cinema sign is 12 ft. in diameter, illuminated with multicolor exposed neon. Open-face channel letters 68-in. tall are mounted to the front. Ten rows of neon race from the storefront window, up and behind the logo, and skyward along the tower face. Each face of the tower features 5-in.-deep, single-face Permalight LED illuminated channel letters. "Regal Cinemas" is spelled out in 30-in. tall, freestanding channel letters.
