

COMMERCIAL SIGN SYSTEMS

Fabricator
L + H Sign Co.
Fleetwood, PA
(610) 944-9885

Designer
Scott Long
L + H Sign Co.

Client
Gold Café at Union National
Community Bank

Giving new meaning to the term “full-service banking,” the institution’s management complemented the lucre in the vault with the Gold Café. L + H outfitted the coffee bar and its environs with a broad graphic treatment that included acrylic-faced, pylon signs; wall-hung murals; and other digital graphics. The shop decorated Chemcast GP acrylic panels with Avery Graphics’ AG translucent film outdoors and A6 opaque films indoors. To create the logo, L + H routed acrylic on its MultiCam 3000 CNC router. Structural components comprised routed, formed and welded, .080-in. aluminum. Magnet-secured frames facilitated menuboard installation.
